1. For households with more than 8 members, see page 4

Calculating AMI for households greater than 8

Example:

Calculating **80% AMI** for an **11-person household** in **Alachua County**

Step 1: Examine the chart to find desired % AMI for a four-person household in a county

County Name	Median Income	AMI Level	Household Size			
			1	2	3	4
Alachua	\$106,700	80%	\$58,250	\$66,600	\$74,900	\$83,200
		150%	\$109,200	\$124,800	\$140,400	\$156,000

Step 2: Multiply the AMI for a four-person household by 1.32 plus an additional .08 for each household member in excess of 8

$$\$83,200 \times (((11-8) \times .08) + 1.32) = \$83,200 \times (.24 + 1.32) = \$83,200 \times (1.56) = \$129,792$$

Step 3: Round down to the nearest hundred

80% AMI for an 11-person household in Alachua County: \$129,700
